ALL THE PRODUCTS YOUR CUSTOMERS NEED

Sun Evolutions offers all the brands & formula types your customer will ever need.

- Our top selling products from Supre Tan®, Hempz®, ProTan®, Fiesta Sun® and BWL® cover all performance categories in tanning and skincare reflecting the latest trends in packaging and personal style.
- Over 200 products of Dark Bronzers, Tan Maximizers, Hot/Tingle Tanners, Sunless Tanning, Body Moisturizers, Bath and Shower Gels, Lip Balms and After Sun Care Products offer a complete range of competitive price points to meet all your customers' specific needs.
- Our high performance formulas are developed and manufactured in our own state of the art facility by a team of chemists who are constantly researching and developing new performance innovations. We incorporate the finest ingredients and the latest technologies with cutting edge mixing and filling equipment to meet the highest standards and practices available today.
- All our formulas are cruelty free with no animal testing.

TLC Stands for Training + Lotion = Cash

This training manual is designed to teach you about all the exciting products offered by Sun Evolutions. Each section includes features & benefits, images of products, sales tips and more.

DEFINING DIFFERENT LOTION TYPES

Sun Evolutions offers a variety of different lotion types that each have unique selling points and benefits.

MAXIMIZER - Helps to boost the natural tanning process by increasing Melanin production in the skin. Sun Evolutions formulas include a variety of proprietary blends including Tantalize, Hyperdark and Colorburst Technology which contain Tyrosine and natural tan enhancers to help achieve darker color. Maximizers are perfect for beginner tanners or tanners who are wanting to achieve natural looking color without the use of Bronzers.

NATURAL BRONZER - Enhances the skin's natural tanning process by utilizing natural bronzing ingredients (without DHA) that even out skin tone and add streak free color. Sun Evolutions incorporates a variety of natural bronzing ingredients including Caramel, Henna and Black Walnut Shell Extract. Natural Bronzers are perfect for beginner tanners or tanners that want darker streak free golden bronze color without the use of DHA.

BRONZER - Increases the skin's dark color by utilizing DHA and Natural Bronzers for darker, richer color that continues to develop after UV exposure and can last up to several days. DHA reacts with the proteins on the surface of the skin to provide a rich golden tan. Sun Evolutions only uses the highest quality of DHA in their formulas to provide more natural looking color. Bronzers are perfect for tanners that have an established base tan or darker complexions that are wanting to take their tan to the next level fast. Bronzers should be applied to clean exfoliated skin. Hands should be washed after application to avoid discoloration.

TINGLE/HOT - Intensifies the tanning process by stimulating microcirculation to the surface of the skin. Sun Evolutions uses Methyl Nicotinate and/or Benzyl Nicotinate which creates the redness and tingling sensation that can last for several hours. Tingle/Hot products are recommended for experienced tanners only. Tingle/Hot products should never be used on the face, by beginner tanners or those with sensitive skin. A spot test before full body application is recommended. Be careful when handling children as reddening sensation can be transferred upon contact hours after use. Wash hands and avoid touching eyes or sensitive areas after application.

COOLING - Creates a light cooling and refreshing sensation on the skin after application that can help offset the heat some tanners may feel during their tanning session. Wash hands and avoid touching eyes or sensitive areas after application.

SELF TANNER - Provides a golden bronze color on the surface of skin without UV exposure. Sun Evolutions utilizes a proprietary blend of DHA and Erythrulose in these formulas which create a deep rich golden color that develops within 3-4 hours of application and can last for several days. Self Tanners are perfect for tanners who may want to help maintain their tanning between extended periods of time from the salon or for those who are looking for immediate color without UV exposure.

WHY USE A LOTION?

The use of lotions is an absolute necessity when tanning indoors. There are many benefits to using a lotion which plays a vital role in the outcome of your tanning result.

Using a lotion while tanning helps keep the skin moisturized which leads to better magnification for maximum tanning results. Without the use of lotion, skin is dry and deflects UV light. Moisturized skin will absorb the UV light, helping to influence the tanning process for a faster, deeper, darker tan.

Faster, Deeper, Darker Tanning Results!

In addition, many lotions contain intensifying, maximizing and bronzing ingredients, which also help amplify your tanning results.

Boost Your Bronze! Magnify Your Melanin! Stimulate Your Skin!

The other advantage of using an indoor tanning lotion is skin care. Tanning lotions contain many Vitamins and Nutrients, along with emollients, hydrators, moisturizers, and humectants. Your tanning lotion may even contain Age Defying and firming ingredients as well as offer other skin care benefits.

These ingredients are essential not only in promoting healthier looking skin, but also to help replenish moisture loss during the tanning process.

Replenishes! Rejuvenates! Restores! Revitalizes! Refreshes!

Educate your clientele on these benefits and assist them by making lotion suggestions and recommendations based on their tanning needs. Sun Evolutions is proud to offer many different types, styles, and collections of lotion, you will surely be able to suit each of your customer's particular preferences, specific tanning goals and individual budget.

SUPRE TAN COLLECTION

DELICIOUS COLLECTION

The Delicious Collection is a mouth watering array of lusciously dark formulas bursting with color and flavorful scents. This bountiful selection of tasty tanning treats will indulge your senses but not your wallet because they're priced oh so nice. Try all the varieties and discover your favorite.

Banana Colada™

BWL COLLECTION

Say no to fine lines, wrinkles, dark circles, scars and cellulite! The Beauty with Light Collection of products is designed to work during your Red Light Session by providing advanced benefits for vibrant healthier looking skin.

Red Light - ST® Ultra Concentrated EVO Pre & Post Red Light Serum

Product Type: Red Light Therapy Under Eye Treatment

The Formula Story:

Advanced Benefits for Vibrant, Healthy Looking Skin. This ultra light, fragrance free serum helps reduce the appearance of serious dark circles and chronic puffiness surrounding the orbital area while protecting the skin from free radicals to promote faster, noticeable skin care results. Synergistic formula designed exclusively for the orbital areas.

Features & Benefits:

- REGU-Age is a unique blend of Purified Natural Soy, Rice Peptides and biotechnologically produced superoxide dismutase that helps reduce the appearance of dark circles and puffiness around the orbital eye area. It also promotes elasticity and resiliency to help diminish the appearance of premature aging.
- Pentacare-NA is a mixture of plant galactomannans and hydrolyzed proteins isolated from wheat gluten that helps improve skins tone and texture.

Additional Selling Points:

- Ultra Calming Complex
- Fragrance Free
- Hypoallergenic
- Deionized Water Based

Fragrance: Fragrance Free

Sizes: 1 fl. oz. tube

Red Light - ST® Ultra Concentrated EVO Post Red Light Lotion

Product Type: Red Light Therapy for Body

The Formula Story:

Advanced Benefits for Vibrant, Healthy Looking Skin. Micro technology designed to reduce the appearance of cellulite. Specifically formulated to be used after red light exposure to help promote collagen and elastin vitality for a more smoothed and toned appearance while skin nourishing moisturizers and powerful Antioxidants help protect against free radical damage.

Features & Benefits:

- Kelp Extract helps skin appear smoother and more toned.
- Niacin helps restore softness and suppleness to skin.
- Coaxel (Coenzyme A - L-Carnitine - Caffeine) is a patented ingredient designed to help accelerate and stimulate fat lipolysis to help reduce the appearance of cellulite.

Additional Selling Points:

- Ultra Light Formula
- Coconut Oil
- Pure Aloe Vera
- Hypoallergenic
- Vitamins A, C and E

Fragrance: Fragrance Free

Sizes: 6 fl. oz. tube

Red Light - ST® Ultra Concentrated EVO Post Therapy Serum

Product Type: Red Light Therapy for Face

The Formula Story:

Advanced Benefits for Vibrant, Healthy Looking Skin. This ultra light, fragrance free facial serum helps reduce the appearance of fine lines and wrinkles.

Features & Benefits:

- Argireline is derived from Natural Proteins that help skin appear more toned and tightened.
- Cetearyl Ethylhexanoate is the ester of Cetearyl Alcohol, a mixture of Fatty Alcohols that functions as a skin-conditioning agent to help maintain moisture and leave skin feeling velvety soft.
- Green Tea Extract (Camellia Sinensis) is a powerful ingredient that contains Antioxidants that help skin appear more youthful looking.

Additional Selling Points:

- Pure Aloe Vera
- Hypoallergenic
- Vitamins A, C and E

Fragrance: Fragrance Free

Sizes: 1 fl. oz. tube

Product Type: Red Light Therapy for Face & Body

The Formula Story:

Advanced Benefits for Vibrant, Healthy Looking Skin. This refreshing light mist helps prepare your skin for red light exposure and is pH balanced to promote optimal benefits. Fortified with Vitamin C that helps revitalize your skin while natural Aloe Vera soothes and conditions with each use.

Features & Benefits:

- Aloe Vera Gel contains Vitamins, Minerals, Amino Acids, Enzymes, Polysaccharides and Fatty Acids which help replenish moisture, soothe and soften skin.
- Sodium Hyaluronate Acid (HA) is a natural humectant that combines with, maintains and attracts moisture. It is known for its amazing skin nourishing and hydration properties which helps reduce the appearance of fine lines and wrinkles for smoother, younger looking skin.
- Vitamin C (Ascorbic Acid) is a powerful antioxidant known to help fight free radical scavengers to combat the signs of premature aging.

Additional Selling Points:

- Fragrance Free
- Hypoallergenic
- Vitamins A and E

Fragrance: Fragrance Free

Sizes: 6 fl. oz. can

Helpful Sales Tips

1. The MOST important words you say to every client are "Thank You" and "I'll see you tomorrow." Throwing in "you look great" goes a long way too. You are never too busy to stop and show appreciation to all your tanning guests.
2. Conversations with tanning guests are vital. Starting with how they're doing? How's their day going? Reminding them how much they are valued as a salon guest. That opens the door to everything else.
3. Always ask your guests what their tanning goals are; this information will give you clues on what products to suggest to them and can help to create a more personalized and engaging experience.
4. Today's "No" is tomorrow's "Yes I'll take it." Keep asking questions and getting to know your tanners...it's what you are there for.
5. Wear moisturizer at work and apply it often. Let them ask what that amazing scent is... it's me! #sold
6. Everyone showers, so everyone buys body wash...why not from you?
7. Exfoliate skin prior to tanning as often as possible. Exfoliating sloughs off dead skin and creates a smooth surface for tanning. Sun Evolutions offers a wide variety of gentle cleansing body washes and exfoliators.
8. Did you know that a tanner should wait at least 4 hours before taking a shower or bathing after a UV session? A tan continues to develop several hours after a session and showering will hinder full color development.
9. Shaving speeds up the fading process especially on legs. Help your customers keep their color uniform by showing them how sunless products can supplement their color in-between sessions.
10. Try it so others will buy it! You sell things you enjoy with more passion. What is your favorite?

FAQs

Why tan?

People choose to tan for psychological and physiological reasons. Most seek the cosmetic value of darker skin as a way to heighten mood and self-esteem. Others tan to help their body produce Vitamin D.

How does my skin tan?

When the skin is exposed to ultraviolet (UV) rays, a natural process begins to take place. Melanocytes are special cells in your epidermis, the outermost layer of your skin. When exposed to UVB (shorter) rays, these melanocytes produce the pigment, melanin, which is then absorbed by the surrounding skin cells. Exposure to UVA (longer) rays causes the melanin to oxidize or darken, creating a tan.

How long will it take to get a tan?

Everyone's skin is different, and the tanning process occurs at different speeds depending on a person's skin type. Those with darker complexions usually tan faster than those with fair skin. As a general rule, 10-15 consecutive sessions (every other day, or not more than 4 times per week) will give you a base tan. How long it takes to get a tan also depends on whether or not you use a Sun Evolutions indoor tanning product to maximize the tanning results from UV exposure.

Why should I use indoor tanning lotions?

Specifically formulated for indoor use, Sun Evolution's professional indoor tanning lotions enhance melanin production, as well as help hydrate and condition the skin. When tanning, dry skin reflects light, not allowing UV rays to be absorbed as quickly as when using a lotion. By using a lotion, you are allowing more UV light to penetrate your skin more quickly, which can develop a more natural looking tan up to 60% faster.

Are Sun Evolution products tested on animals?

No, they are not.

What is the shelf life of Sun Evolution lotions?

Your lotion will be good for up to 12 months after opening. Please don't leave it in extremely hot or cold environments such as the trunk of your car as this will affect the formula and decrease its efficacy.

Do any of Sun Evolution's tanning lotions or moisturizers contain mineral oils?

No. Mineral oils can crack tanning beds and clog skin pores.

Should I tan indoors or out?

Indoor tanning provides a controlled UV environment and allows you to monitor UV exposure time to the minute.

How do I decide which tanning lotion to use?

It depends on the results you are looking to achieve. Do you like your natural tan as far as color and depth? (Make a recommendation based on their answer as to what type of lotion best suits their needs.)

Can I use this lotion outdoors?

Yes, if used in conjunction with an SPF product. Please note that indoor tanning products do not contain sunscreens. Please note that tingle products are NEVER recommended for tanning outdoors, with or without sunscreen.

Can I just use a regular daily moisturizer purchased from a drugstore?

Are all daily moisturizers the same? No!

Daily moisturizing locks in moisture and enhances your tanning results. We recommend professional daily moisturizers from Sun Evolution and Hempz over any drugstore-bought variety. Apart from moisturization designed to preserve and enhance your tan, they offer the added benefit of minerals and nutrients key to developing and maintaining your healthy tan and skin.

Note: Over-the-counter moisturizers often contain mineral oil, which can not only clog your pores, but also strip away your tan.

Why does my tan fade?

Since a tan occurs in the epidermis, the skin's outermost layer, it is eventually lost during the natural exfoliation process. Skin replaces its cells every 28-30 days; the cells in the top layer are sloughed off, allowing new ones to reach the surface. When the old cells are exfoliated, they take with them the darkened melanin created by the exposure to UV light. To maintain your tan you must continue to expose your skin to UV light. Using Sun Evolution's indoor tanning lotions and daily moisturizers, as well as Hempz body washes, will help you maintain and extend the life of your beautiful tan.

Will I fail a drug test if I use products containing hemp?

No. Hemp seed oil and extract are THC-free. Sun Evolution's goes the extra mile and tests every batch of product containing hemp seed oil or extract to ensure it is THC-free.

What are paraben-free lotions?

Parabens are preservatives that have been widely used in personal care products for years. Although they are still considered safe, recent studies suggest possible health care concerns could be associated with the use of these additives. Sun Evolution formulations are paraben-free.

Why do I have to use eyewear?

The potential risk of eye injury from unprotected UV exposure is serious and real. The skin on your body is thinnest around the eyes; UV light can easily penetrate this skin, causing burns, cataracts, poor night vision or possible permanent loss of sight. Repeated, unprotected exposure to UV light may cause long-term damage to your eyes. That's why we require tanners to use eyewear every time they tan. Remember, you only have one set of eyes. Take good care of them.

What do hot (tingle) products do?

They help stimulate rapid circulation on the surface of the skin, creating an extreme redness and warming/tingling sensation to enhance the intensity and appearance of a tan. The effect is temporary and can last up to several hours.

Hot (Tingle) products are recommended for experienced tanners only and not to be used on the face or those with sensitive skin.

Is there anyone who should not use a hot product?

Yes. Hot products should not be used by beginner tanners or those with sensitive skin. Do not use hot products outdoors.

Can I use a hot product on my face?

No. The sensation is too intense for sensitive facial skin. We recommend washing hands after applying a hot product to avoid transfer to the face or other sensitive skin areas.

Does a hot product give you sunburn?

No. It does create a temporary redness and warming sensation to the surface of the skin that can last up to several hours.

My tingle lotion doesn't work anymore. I can't feel the heat.

If you have been an avid tingle tanner, it is possible for your skin to acclimate to the heat. Your tingle lotion is still performing even if you no longer feel the tingle sensation. You may want to move up to a higher tingle factor, or alternate with a non-tingle lotion for a brief period of time.

What is the best way to apply a bronzer?

For best results, apply an even amount across the entire body in a smooth, circular motion and remember to wash your hands after application!

Should I exfoliate before using a bronzer or sunless tanner?

Yes. Exfoliation helps remove dry skin cells, which absorb self-tan color and can refract UV tanning rays, causing splotchiness and uneven results. We recommend Hempz Herbal Body Scrub for gentle exfoliation.

How long should I wait to shower after using a bronzer or sunless tanner?

Wait at least 2-4 hours before showering, swimming or performing an activity that might create excess perspiration. This will ensure a smooth, even color and help prevent streaking.

How long does a sunless tan last?

It typically lasts 3 to 5 days and will start to fade as your skin exfoliates. You can extend your sunless tan with daily use of one of Sun Evolution's all-day moisturizers.

If I have a sunless tan, do I still need to wear SPF when I am outdoors?

Yes. Sunless tans are artificial coloring of the skin and provide no protection from UV rays.

What is that awful smell you can get after tanning?

When the body heats up, harmless bacteria on the skin cause that smell. Most Sun Evolution lotions contain Odor Shield Technology™ to eliminate after-tan odor.

Glossary

4 Part Silicone Blend – Evening Primrose, Aloe Vera and Vanilla Bean Extract combined to balance moisture and helps provide a protective barrier leaving the skin feeling velvet soft and silky smooth.

A

Acai Berry Extract (Euterpe Oleracea Fruit Extract) – Powerful Antioxidant that is rich in Vitamins, Minerals and Essential Fatty Acids that helps to provide Age Defying and skin nourishing benefits.

Accelabronze – Proprietary blend that prepares skin for rich, golden color.

Acerola (Malpighia Punicifolia (Acerola) Fruit – Antioxidant.

Acetyl Tyrosine – An Amino Acid that helps promote Melanin production in the skin, aiding in a more rapid tanning process. A derivative of L-Tyrosine, an organic Amino Acid that is a building block of protein.

Adenosine Triphosphate – A coenzyme found in the body that helps speed up the rate of Melanin production.

Agave Nectar – Gently hydrates and rejuvenates skin.

Age Defying Super Fruits – Powerful Antioxidants that help reduce the appearance of fine lines and wrinkles leaving your skin feeling soft, smooth and full of moisture.

Algae Extracts – Rich in essential Amino Acids, Vitamins, Minerals and trace elements. Has been known to help regulate cellular metabolism and activate protein synthesis. Ideal for firming and revitalizing skin.

Aloe Vera – An extract from the leaves of the Aloe Barbadensis plant known to have healing and soothing properties. It also helps condition, rejuvenate and restore moisture balance to the skin.

Amino Acids – The building blocks of protein.

Antioxidants – Ingredients that help to reduce free radical damage and environmental stressors for healthier looking skin.

Apple Fruit Extract – Used for its ability to moisturize.

Apple Stem Cells – Help boost production of stem cells while protecting the cells from stress and decrease of wrinkles.

AquaCacteen – An ultra-refined elixir. Calms and soothes irritated skin. Outstanding hydration.

Argan Oil – High in Vitamin E. Helps condition, nourish, smooth, soften and moisturize.

Argireline – Synthetic Anti Aging cosmetic ingredient derived from natural proteins that is a peptide complex made up of Amino Acids.

Astrocaryum Murumuru Butter – Rich in nutrients, helps moisturize skin.

Avocado Extract – High in Vitamins and Potassium to help nourish and condition the skin.

B

Banana Extract (Musa Sapientum (Banana) Fruit Extract) – Hydrates and conditions helping to improve skin tone while boosting the tanning process.

Baobab Oil – Helps diminish fine lines and wrinkles while improving skin's texture.

Beta-Carotene – ProVitamin A serves as an antioxidant and helps support skin pigmentation.

BFF Skincare blend – Helps nourish and hydrate skin leaving it feeling soft and smooth.

Black Bamboo Extract – Help your skin look soft and smooth for the perfect bronze glow.

BlackBerry Extract (Rubus Fruticosus (Blackberry) Fruit Extract) – Potent Antioxidant.

Black Coal – Skin softening powerhouse that helps condition and nourish the skin.

Black Currant Oil – Known to help aid and improve firmness and elasticity.

Black Fig Extract (Ficus Carica (Fig) Extract) – Emollient high in Vitamin C that hydrates and conditions dry skin for a softer radiant glow.

Black Quinoa – Helps seal in essential moisture while helping to ward of the signs of aging.

Black Raspberry Extract (Rubus Occidentalis Fruit Extract) – Anti Aging and potent antioxidant properties.

Black Tea Extract (Camellia Sinensis) – Anti Aging, potent Antioxidant properties.

Black Walnut Shell Extract – Extract of the shells or bark of the Black Walnut Tree. Its thick, black coloring deepens self-tan color, helps alleviate streaking and is especially effective when used in conjunction with DHA.

Blueberry Extract – Helps revitalize skin and adds moisture.

Brazilian Nut Oil – (See Kola Nut)

Buriti Oil – Helps to rebuild, re-hydrate, and moisturize skin; as well as protecting collagen and elastin. Helps aid in reducing the appearance of fine lines and wrinkles, increases skin elasticity and helps to reduce the appearance of sun spots.

C

Caffeine – Helps reduce puffiness and the appearance of fine lines and wrinkles. Also known to energize skin.

Calendula Extract – “Antibacterial” qualities; anti-inflammatory and Antioxidant properties for the skin.

Calming Oatmeal Complex – Helps reduce dryness and helps skin feel soft and smooth.

CandyColor Complex – blend of natural color enhancers that help boost the tanning process for rich golden color.

Capric/Caprylic Triglyceride – Derived from Coconut, this emollient creates a slight barrier for long lasting moisturization without greasiness.

Caramel Extract – Natural bronzing agent imparts light bronze color to the surface of the skin.

Carob Extract – Boosts the natural tanning process and helps maintain your tan for a longer period of time.

Carrot Root Extract and Carrot Seed Oil – Helps provide extraordinary skin nourishment due to the high concentration of oil-soluble carotenoids. Natural Vitamin E content offers Antioxidant properties to help soothe skin and reduce the harmful effects of environmental damage.

CBD – Pure CBD isolate helps relieve, soothe and calm skin.

Cetearyl Ethylhexanoate – Helps to maintain moisture in the top layers of the skin.

Chamomile – The extract is derived from the single flower of the Aromatic Perennial native to Europe and the Mediterranean. Stimulates metabolic activity, helps condition and soothes.

Champagne Extract – Powerful antioxidant properties, it offers excellent moisturization and nutrients. Helps to combat damaging free radicals that cause your skin to lose elasticity, radiance and suppleness.

Charcoal Powder – Skin softening powerhouse ingredient.

Cherry Blossom Extract – Antioxidant that moisturizes and conditions the skin.

Cherry Extract – Conditions and moisturizes skin. Helps improve skin's tone and texture.

Citrus Fruit Complex – Hydrates, revives, and soothes dry skin.

Cinnamon – Warm and stimulating. Strong anti-inflammatory properties and conditions the skin.

Clay Perfecting Minerals – (See Kaolin Clay)

Coaxel (Coenzyme A – L-Carnitine – Caffeine) – Patented ingredient designed to help accelerate and stimulate fat lipolysis.

Coco Complex – Blend containing Vitamins and Cocoa Extract to help skin appear smooth and more toned. Also see Cocoa Extract.

Cocoa Extract – The Cocoa plant is rich in phytoestrogenic compounds that help decrease the formation of cellulite in the skin. Cocoa can also be used to help reduce the appearance of fine lines and wrinkles.

Cocoa Butter – For centuries, the women of Africa have used Cocoa Butter to moisturize and cool their skin. This rich, creamy oil is derived from Cacao Seeds to help provide rich moisture and surface conditioning to help soften and nurture the skin.

Coconut Milk – High levels of Vitamin C. Moisturizes, hydrates and soothes while helping promote healthy glowing skin.

Coconut Oil and Extract – Extracted from the flesh of the Coconut. Hydrates, conditions and helps protect the skin. Anti-Aging properties and helps prolong the life of a tan.

Coconut Water – High in Vitamin C, vital for collagen, skin firmness and elasticity.

Co-Enzyme Q-10 – Antioxidant rich complex helps provide Anti-Aging benefits when topically applied.

Cogon Grass Extract – nourishes skin with its Potassium heavy, Vitamin and Mineral based properties, leaving skin supple, soft and smooth.

Coffee Extract – Antioxidant that provides skin conditioning and helps reduce the appearance of fine lines and wrinkles.

Coffee Cherry Extract – Most potent of the natural antioxidants. Prevents fine lines, wrinkles and damage to the skin.

Coleus Extract – Helps to stimulate the production of Melanin without the need for any sunlight.

ColorBurst Complex™ – Boosts the skin's natural Melanin production, taking your tan to its deepest level.

ColorLock Tan Extenders™ – Helps prevent fading and prolongs the life of your tan.

Comfrey Extract – The extract that is derived from the leaves and flowers of the plant is known to help moisturize and soothe skin.

Copper – An important trace element for human nutrition. It is a component of the powerful Antioxidant enzyme, Superoxide Dismutase.

Cosmotox – Proprietary blend that helps skin feel more firm and tight.

Cotton Extract – Helps replenish moisture to the skin.

Cranberry Extract (Vaccinium Macrocarpon) – Extremely rich in Omega-3, Omega-6 as well as Omega-9 fatty acids. Provides skin nourishing and moisturizing benefits.

Cucumber Extract – Derived from the skin and pulp of Cucumber. Native to India, Cucumber offers a high water content that helps moisturize, purify and refresh skin. Fresh Cucumber Pulp is also renowned for its soothing properties.

CX2 – Powerful skin tighteners that help your skin appear more firm and younger looking.

D

Daisy Flower Extract – Potent in lightening dark spots.

Dark Chocolate Extract – Antioxidant that helps moisturize, condition and tone the skin.

Dark Melanin Complex – Immediately helps prepare skin for rich, radiant color.

Dead Sea Salts – It contains Magnesium which is great for your skin because it helps get rid of dry skin and will help improve the texture and while hydrating.

DHA (Dihydroxyacetone) – Tanning agent commonly found in sunless tanning formulas. A Keto Sugar derived from Sugarcane, it reacts with proteins on the surface of the skin to create the look of a tan by staining the upper levels of the skin. Color can last up to 8 days. DHA can be combined with Black Walnut Shell Extract for a deeper color, and with Erythrulose to extend the life of a sunless tan. See also Black Walnut Shell Extract and Erythrulose.

DHA Delivery System – Allows skin to further darken up to 12 hours after UV exposure. Lasts up to 8 days for smooth, enduring color.

DPHP (Dipalmitoyl Hydroxyproline) – Helps stimulate the production of collagen fibers, which results in healthier looking skin. Combined with MDI Complex, it helps counteract the free radicals that destroy collagen. See also MDI Complex.

Dual Bronzing Blend – Contains tanning agent, DHA (dihydroxyacetone), plus a natural bronzing blend.

E

Emollient – Ingredients that absorb into the skin help condition the skin to feel softer and smoother.

Ergothioneine (Thiotaine) – An Amino Acid that is a powerful Antioxidant and catalyst for oxygen use. It helps the skin absorb maximum amounts of oxygen to enhance the tanning process.

Erythrulose – A tanning agent commonly found in sunless tanning formulas, it is sugar derived from Algae that reacts with proteins on the surface of the skin to create the look of a tan by staining the upper levels of the skin. It helps provide an even and uniform sunless tan, and is often used with DHA to prolong the life of a sunless tan. See also DHA.

Essential Oil Blend – Rich blend of Jojoba Seed Oil, Sunflower Seed Oil and Aloe Vera Extract revive skin leaving it hydrated, nourished and conditioned.

F

Feverfew Extract – High in antioxidants. A natural anti inflammatory that helps reduce the appearance of redness and skin irritation.

Frankincense – It can help you to eliminate sun spots and generally tone and tighten skin. It's also known for strengthening and centering. process.

G

Gardenia Extract – Helps skin feel soft and moisturized.

Garcinia Indica Seed Butter – Emollient that moisturizes the skin and helps reduce the appearance of fine lines and wrinkles.

Generous Color Complex – Proprietary blend of ingredients that help boost the skin's natural Melanin production, taking your tan to its deepest level.

Ginger Extract – Soothes and comforts skin and its fragrance is effective in calming and bringing a sense of relaxation.

Ginkgo Extract – An Antioxidant that is soothing to the skin.

Ginseng Extract – Derived from the root of the Chinese perennial herb, Ginseng, is known for its many skin conditioning nutrients and Vitamins that helps to soothe stressed skin.

Gluten Free – Products that do not contain Glutens, which are proteins derived from wheat. For some, Gluten can cause a condition called Celiac Disease, an inappropriate immune system response.

Glycerin – Helps to bind and balance skin moisture for a soft, conditioned feel.

Goji Berry Extract (Lycium Barbarum Fruit Extract) – Powerful Antioxidant to help fight against free radical damage to the skin. Anti-irritative, sensitive skin while aiding in skin moisturizing with powerful Anti Aging properties.

Grape Seed Extract – Strong Antioxidant and anti-pollutant. Helps prevent free radical damage. Offers skin smoothing and moisturizing properties.

Grape Seed Oil (Vitis Vinifera (Grape) Seed Oil) – Regenerative and restructuring qualities, helps moisturize, reduces the look of lines and wrinkles.

Grape Stem Cells – Protects Skin Stem Cells against UV stress while also helping to fight photoaging for vital and healthy looking skin.

Grapefruit Extract – Helps repair the moisture barrier of the skin which helps restore moisture.

Green Tea Extract – Well known for its Antioxidant properties and Caffeine content. Combined with Cocoa and Red Clover, it helps increase microcirculation and fat metabolism while also helping decrease production of cellulite.

H

Hemp Seed Extract – Derived from the seed of the Cannabis Sativa plant (THC drug free industrial hemp). It is a rich source of Essential Fatty Acids, Amino Acids and nutrients that helps hydrate, nourish and condition skin.

Hemp Seed Oil – Derived from the seed of the Cannabis Sativa plant (THC drug free industrial hemp). It is a rich source of Essential Fatty Acids, Amino Acids and nutrients that helps hydrate, nourish and condition skin.

Henna Extract – Used as a Cosmetic Bronzer; derived from the leaves of the Henna plant.

Hibiscus Extract – Known for its Antioxidant properties.

Himalayan Sea Salt – Penetrates your skin, leaving you refreshed, energized and nourished.

Honey – Very high content of Minerals, Amino Acids and Vitamins, which aid in keeping skin healthy. Honey contains natural Antioxidants, which guard against free radical damage and encourage healthy cell turnover in the skin.

Honey Dew Extract (Cucumis Melo (Melon) Fruit Extract) – Moisturizes, revitalizes and enriches the epidermis.

Honeysuckle Extract (Lonicera Caprifolium (Honeysuckle) Flower Extract – Excellent emollient that conditions and soothes the skin.

Horse Chestnut Extract – Derived from the seed of the Horse Chestnut Tree, it contains high levels of Escin and Lecithin with anti-cellulite and anti-inflammatory properties. Also helps calm and firm the skin.

Hyaluronic Acid – Good water-binding agent helps provide defense against water loss in skin.

Hydrolyzed Vegetable Protein – A water-soluble vegetable protein that helps strengthen and condition skin.

HyperDark™ Tanning Technology – A proprietary blend helps boost the natural tanning process for a deeper, darker tan.

Hypoallergenic – Specially formulated for sensitive skin.

I

Indian Gooseberry Extract – Rich in Vitamin C to help brighten skin while retaining skin's natural moisture and reducing the appearance of fine lines and wrinkles.

Inkcredible™ – Moisture blend with Cocoa Butter, Sunflower & Olive Oil helps rejuvenate and nourish tattooed skin while continually promoting rich, golden color.

Iron – A trace mineral that helps to smooth and moisturize skin.

Isosorbide Complex – Helps deliver color and skin care benefits deeper into the skin.

J

Jasmine Extract – Extracted from the flowers of the fragrant *Jasminum Officinale* plant native to Asia, it has an uplifting fragrance and soothing and moisturizing properties.

Joboba Oil – An extract from the bean of the Jojoba plant with a high Lipid content. This renewable source of high quality conditioning for the skin is excellent for all skin types.

K

Kaolin Clay – Helps regulate the oil and moisture in skin while promoting a smoother and healthier looking complexion.

Karmacolor™ Dark Tanning – Helps prepare skin for a rich natural looking tan.

Kelp Extract – Helps skin appear smoother and younger looking.

Kiwi Fruit Extract – Rich in Vitamins C and E, Magnesium and Potassium. Soothes, conditions and softens skin.

Kona Extract – Soothes, calms, softens, repairs and nourishes skin that is showing the signs of aging. Instantly replenishes sunburned skin as well.

Kola Nut – Natural extract rich in Antioxidants that helps promote smoother and younger looking skin.

Kombuchka – Hydrates the skin and helps improve skin tone, texture and combats the appearance of wrinkles and fine lines.

Kukui Nut Oil – A tropical oil found in the Pacific Islands that works as an outstanding emollient and is quickly absorbed into the skin to help condition and hydrate.

L

Lavender Extract – Calms, soothes and relaxes the mind, body and skin.

L-Carnitine – Moisturizing and skin conditioning properties that leave skin feeling soft and hydrated.

Lemon Balm Leaf Extract – Anti inflammatory that fights against inflammation and an Antioxidant that adds balance, beauty and moisture to skin. It also helps in boosting the appearance of skin and reducing the appearance of fine lines.

Lemon Extract – Natural source of Vitamin C and Antioxidants with Anti Aging benefits.

Licorice Root Extract – Soothes and conditions the skin.

Lotus Blossom – Helps hydrate the skin and soften the appearance of wrinkles for a more youthful looking glow.

Lychee Extract – Helps fight off free radicals, and signs of aging skin.

M

Macadamia Nut Oil – Derived from the seed of the Evergreen Macadamia Tree native to Hawaii. It is easily absorbed into the skin and contains natural Antioxidants known to soothe, condition and soften skin.

Magnesium – Trace mineral that helps restore skin's moisture and flexibility.

Mandarin Extract – Used for its moisturizing and slimming properties.

Mango Fruit Extract – Rich in Antioxidants that help fight environmental stress and promote a more youthful appearance.

Mango Seed Butter – Rich Amino Acid content with superior moisturization.

Maple Leaf Extract – Helps smooth and even out skin tone.

Maracuja Oil – Helps to rejuvenate and deliver an even toned complexion while its infusion of Vitamin C creates the appearance of brighter skin.

Marshmallow – Anti-inflammatory properties and soothing.

Marula Oil – Wonder oil that helps heal and hydrate skin without clogging or irritating and contains high amounts of Antioxidants, nutrients and Essential Acids.

Matcha – Super concentrated form of Green Tea high in Antioxidants.

MDI Complex – Helps reduce the amount of specific enzymes that can destroy Collagen, resulting in healthier skin that supports a better tan. Combined with DPHP, it helps counteract the free radicals that destroy Collagen. See also DPHP.

Meadowfoam Seed Oil – Superb Antioxidant properties and skin softening benefits.

Melanin – A vegetable derivative that works with the body's own Melanin production to help build color faster during the tanning process.

Melanin Activating Peptide – String of proteins that is known to help stimulate Melanin synthesis, producing a darker tone.

Melanin Synthesis Intensifier – An ingredient in some of our proprietary tanning blends that intensifies Melanin production.

Melanin Tanning Complex – Helps promote Melanin production during UV exposure for deeper, darker tanning results in a shorter period of time.

MelanoMax™ – Dark tanning complex designed to stimulate Melanin synthesis for a deeper, darker, natural looking tan.

Melon Extract – Rich in Vitamin A and C and a wide range of various Antioxidants.

Menthol – Helps to cool and soothes skin.

Mica – Adds a light gold sheen.

Milk Protein – Extremely rich in nutrients and provides hydration and moisture to skin.

Milk Thistle – Antioxidant and detoxifying properties that help in hydrating and softening skin.

Miracle Oil Blend™ – Signature blend of Essential Oils effectively coat skin repairing and restoring skins moisture barrier leaving skin soft, smooth, supple and nourished.

Monoï Oil – From the Tahitian Coconut and Tiare Flower, helps to nourish, condition and soothe skin. Has anti-dehydration properties to help prolong the life of the tan.

Moringa Seed Oil – Helps fight skin fatigue, great skin purifier, making it glow naturally. Anti aging properties and helps curb the aging

Multi-Berry Blend – Proprietary blend that helps reduce the appearance of fine line and wrinkles, leaving your skin feeling soft, smooth and full of moisture.

Murumuru Butter – Known for moisturizing properties and Anti Aging benefits.

Mushroom Extract (Lenithus Edoedes Extract) – Excellent moisturizer that helps revitalize skin, reducing the appearance of fine lines and wrinkles.

N

Natural Bronzers – Exclusive blend of natural bronzing ingredients that does not contain DHA, that helps provide rich, streak free, golden color.

Natural Bronzing Blend – A 5-part blend that contains Melanobronze™ (self tanning agent), Black Walnut Extract, Kukui Nut Extracts, Henna Extract and Caramel but does not contain DHA.

Nectarine Extract – Great Source of Vitamin C. Helps to combat skin aging and hydrate dry skin.

Neem – Nutrient rich to help balance skin tone and promote a youthful looking glow.

NeverEnd™ Color Extending Complex – Combines a unique blend of nutrients designed to prime skin for longer lasting color.

Nicotinate – Derived from Vitamin B, this ingredient is the skin stimulator that produces rapid blood flow to the skin, creating redness and causing an extreme warming and tingling sensation to enhance the intensity and appearance of a tan. The effect is temporary and can last up to several hours. Recommended for experienced tanners only and not to be used on the face or those with sensitive skin.

O

Oat Kernel Oil – Helps comfort and soothe dry skin.

Olea Europaea (Olive) Fruit Oil – Antioxidant that helps condition and moisturize dry skin.

Oligopeptides and Polypeptides – Chains of Amino Acids, linked by Peptide bonds, that work together to aid in Collagen synthesis, helping to improve and reduce the appearance of fine lines and wrinkles.

Olive Extract – Antioxidant that offers excellent moisturization.

Ordenone – Ordenone is a concentrated compound that works on contact to entrap odors. It is used to help eliminate after tan odor on the skin.

Orange Blossom Extract – An extract that is freshening and soothing to the skin.

Orange Peel Extract – Helps promote collagen production and reduces puffiness for youthful looking skin.

Orbignya Oleifera Seed Oil – Emollient that helps soften and condition skin.

OST (Odor Shield Technology) – Proprietary formulation; reduces after tan odor.

Oxygen Technology™ – Helps convert oxygen to moisture while enhancing the tanning process by multiplying the darkening ability of the skin.

P

Panthenol – Helps increase moisture retention in the skin.

Papaya Extract – High in Vitamin A, excellent skin firmer and Anti Aging.

Papaya, Cucumber and Raspberry Water – Proprietary blend of mineral rich waters that are infused with Papaya, Cucumber and Raspberry helps provide moisturization, conditioning, hydrating and Anti Aging properties for softness and rejuvenation.

Paraben Free – Products that do not contain Parabens, which are a type of preservatives found in personal care products. Recent studies suggest possible health care concerns could be associated with the use of these additives.

Passion Flower Extract – Helps smooth and moisturize skin.

Passion Fruit Extract – An emollient that soothes and conditions skin while providing protection from environmental stress.

Peach Extract – Provides refreshing and toning effects on skin and helps promote a healthier looking complexion.

Peach Kernel Oil – Moisturizing and skin conditioning properties.

Peach Nectar – (See Peach Extract)

Peach Oil – Comforts and nourishes skin leaving it feeling moisturized and soft.

Pear Extract – Helps leave the skin feeling refreshed and revitalized.

Pearl Extract – Help to fight free radical damage in addition to helping replenish and rebuild the skin's natural collagen.

PENTACARE-NA – Creates an intermolecular attraction between the polysaccharide and the protein hydrolyzate that helps skin appear more tight and toned.

Peony Extract – Skin brightening. Protects and illuminates the complexion for beautiful glowing skin.

Peppermint Leaf Extract – Helps reduce redness. Works as an anti inflammatory which can help to be used to alleviate skin inflammation and pain.

Peptides – Offer hydrating, soothing and Anti Aging benefits to help fight against environmental stress that cause the appearance of fine lines and wrinkles.

Pineapple Extract – Helps hydrate and condition for younger looking skin.

Pink Wine Extract – (See Wine Extract)

Plum Extract – An emollient that moisturizes and soothes.

Pomegranate Extract – Used for its intensive Antioxidant properties. Considered a super Antioxidant, it helps protect skin from environmental stress and damage.

Pomelo Extract – Helps fight off free radicals, produces collagen that ensures firm, bright and younger skin.

Precious Diamond Dust – Captivates the full spectrum of light, cascading it onto the skin's surface for a more natural and brilliant color and tone.

Primrose – Gentle moisturizer that nourishes skin and has anti-inflammatory properties.

Pro Vitamin B5 – (See Vitamin B)

Pumpkin Extract – Wonder nutrient. Minerals, enzymes and vitamins infuse the skin that help rejuvenate and strengthen weekend skin.

Pumpkin Seed Butter – Contains Phytosterols and Omega-3, 6 and 9 Fatty Acids.

Pumpkin Seed Oil – Rich in vitamin E, zinc, omega 3- and 6- fatty acids as well as antioxidants, therefore it has tremendous benefits for the skin in terms of retaining moisture, fighting free radicals and maintaining a youthful appearance.

R

Raspberry Extract – Excellent for skin nourishment.

REGU-AGE – Skin treatment that helps reduce dark circles and puffiness around the eyes.

Resveratrol – Powerful antioxidant. Provides significant protection against skin aging.

Riboflavin – Commonly known as Vitamin B2, it helps strengthen and rejuvenate skin.

Rose Flower Extract – An emollient that helps skin feel soft and moisturized.

Rose Hip Seed Oil – Rich in Antioxidant vitamins A and E. Helps fight free radical damage and helps to promote skin renewal.

Rose Water – Helps with inflammation, soothes and banishes redness and discoloration.

S

Sandalwood Extract – Helps moisturize and revitalize the skin for a more youthful glow.

Safflower Extract – An emollient high in Oleic Acid. Helps to nourish, protect and firm.

Sea Lily Extract – Helps correct dark spots, freckles and uneven skin tone.

Sesame Seed – Helps to moisturize and replenish dry skin.

Shave Minimizers – Help inhibit hair growth for softer, smoother legs.

Shea Butter – A natural Lipid from the Karite tree of Africa. Provides moisturizing, Anti Aging and healing properties for outstanding softness and skin conditioning. Also known to be a natural skin renewal ingredient.

Shorea Robusta Seed Butter – Helps soften and moisturize skin.

Shorea Stenoptera Seed Butter – Helps soften skin and provide long lasting moisturization.

Silicone – A trace mineral that helps nourish and condition skin.

Silicone Powders – A Polymer system that leaves the skin super soft and silky.

Silicones – Emollients that help lock in moisture for silky, smooth skin.

Silk Amino Acids (Silk Proteins) – Contains 17 Amino Acids and are used to prevent dehydration. They give the skin a very soft and velvety feel and have excellent water binding properties. They also have a certain amount of Antioxidant action.

Skin Energizing Complex – Caffeine, Ginseng and Vitamins revitalize your skin for a more toned and tightened appearance.

Skin Firmers – Helps restore skin's natural vitality to appear firmer, smoother and more toned.

Skin Renewing Nectars™ – Proprietary blend that combines skin conditioning Natural Extracts with Antioxidants to help skin appear more toned while providing Environmental Stress Protection to maintain healthier looking skin.

Skin Stimulation System™ – A proprietary formulation that utilizes Nicotinate to create redness and a warming sensation on the skin to enhance the tanning process. See also Nicotinate. Recommended for experienced tanners only and not to be used on the face or those with sensitive skin.
